DESIGN, PATTERN & SHADE VARIATION GUIDE

Current development efforts have made ceramic tiles resemble and look authentically like natural materials (Stone, Wood, Fabric).

Recognising this situation, it is necessary to be informed of the grade of design & pattern variation that is expected from these products. As a general guide, the design & pattern guide given below classifies the range according to the degree of variation.

V1 Minimal Variation **V2** Slight Variation **V3** Moderate Variation **V4** Substantial Variation

The classification is as follows:
