## Tactile emotions

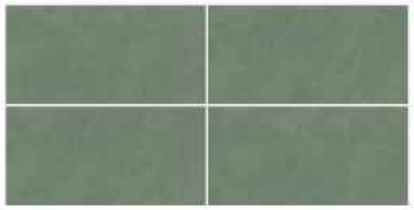

Drawing inspiration from Sir Isaac Newton's timeless exploration of the spectrum of colours and influenced by the vibrant palettes of Indian architecture, the COLORATO collection embodies the essence of nature's hues. Crafted with a tactile linen texture and a rustic matt finish, these surfaces minimise reflections and dust accumulation, inviting you on a captivating sensory journey. Each tile within the collection serves as an art canvas, seamlessly blending the serene essence of linen with an array of vibrant colours. Complemented by subtle greys and beiges, the collection offers boundless opportunities for seamless and elegant combinations. It transcends mere design, for a textured and colourful symphony.

The tiles in this catalogue are reproduced using four-colour printing, and the tiles may not be displayed in accurate sizes. Therefore, we strongly recommend customers to check the physical samples before placing an order. The "Technical Specification" applies exclusively to premium-quality Somany wall and floor tiles. Please inspect the tiles thoroughly before installation, as we don't accept any complaints once the tiles have been applied or fixed. Additionally, complaints regarding borders, highlighters, or motifs will not be entertained after purchase.
