A Glimpse of Our
Signature Projects

TRANSFORMING SPACES ENRICHING LIVES

At Somany Ceramics, our journey has always been guided by a passion for design, innovation, and responsibility. What started as a vision to create exceptional surfaces has evolved into a global brand trusted by architects, designers, and creators who shape the spaces of tomorrow.

Our collections are crafted to respect architectural authenticity and elevate it with modern aesthetics and advanced surface technologies. We understand that every design is a reflection of intent, and our materials are created to support and enhance that vision with purpose and precision.

You, our partners, collaborators, and clients have been the driving force behind our progress. Your trust fuels our ambition, and your ideas challenge us to create better, smarter, and more responsible solutions.

Looking ahead, we remain committed to innovation, sustainable growth, and deeper collaborations. As we expand our global footprint, we're also investing in cleaner energy, digital design platforms, and versatile collections tailored to modern living.

Thank you for being an invaluable part of the Somany legacy. Together, let's continue building surfaces that are not only seen—but felt, lived, and remembered.

A JOURNEY OF OVER 50 YEARS

1971

- H. C. Somany, in technical collaboration with Pilkington Tile Holding (UK), forms Somany Pilkington Ltd. and gets listed at DSE in 1970.
- Starts production at Kasar, Haryana with a capacity of 0.52 million sqmt.

1983

- Second manufacturing unit set up in Kadi, Gujarat, with a capacity of 0.35 million sqmt. per annum, total capacity increases to 2.85 million sqmt.

1992

- Commissioning of higher tonnage new-age hydraulic presses gets commissioned at Kasaar, Haryana.
- Started ceramic cor tiles production with new-age roller kilns.
- Distribution footprint increases across India and Somany becomes a household name.

1994

- Somany family acquires holding stake from Pilkington Tile Holding UK, remains in SPL Ltd.

1996

- Somany's R&D department becomes the 1st and the only company in the tile industry to be recognized by the Government of India.
- India's 1st Double fast ring unit setup.
- Double fast ring units set up in Haryana and Gujarat with combined capacity of 12,000 sqmt. per day.

2007

- Company gets renamed as Somany Ceramics Ltd.

2009

- Earns India's 1st global patent for "High Abrasive Resistant Glaze Composition" known as VC Shield Hardcoat Technology.

2010

- Production of Duragres, Glazed Vitrified tiles starts at Haryana with a capacity of 7000 sqmt. per day.
- 1st in the industry to receive a BIS mark.
- Gets certied by the Green Building Council.

2013

- Files patent for in-house developed "Slip-Resistant Tile Technology".

2018

- In-house production of EzyFix Adhesive starts at Haryana.
- Establishment of a bath fittings unit in Punjab to become a complete provider of bathware solutions.

2019

- JV formed to start its 1st South India tile unit at Tirupati, with a capacity of 3.48 million sqmt.

2020

- Automated plant for EzyFix Adhesive tradles capacity.

And the journey continues...

2021

- Company celebrates its 50th anniversary.
- Gets recognized as India's Most Desired Tiles Brand.

2022

- Files patent for "Somany Temp-Shield".

2023-24

- Coverstone big-size slabs launched.
- Ranked amongst the World's 15th largest tile manufacturer.
- Earns Superbrand Status for VC Shield tiles.

2025

- Aquires DURABUILD®, enters Home & Building solutions.
- Earns SUPERBRAND for Bathware.

EXPORT ACROSS 90+ COUNTRIES

75 MILLION SQMT. MANUFACTURING CAPACITY

11 MANUFACTURING UNITS IN INDIA

BUILDING A BETTER PLANET

Sustainability is a core value that drives every aspect of our business strategy at Somany Ceramics. We recognise the crucial role of sustainable practices in preserving the environment for future generations, while also ensuring long-term business success.

Sustainability is embedded in our management philosophy—guiding how we source raw materials, design products, and operate our manufacturing processes. Beyond environmental stewardship, we uphold the highest standards of social responsibility by fostering ethical labour practices, supporting local communities, and nurturing employee well-being. As part of our clean energy efforts, we have invested 376.20 lakhs in equity shares of Clean Max Ananta Private Limited. Through this strategic move, we will procure solar energy from a captive generation plant in Haryana—an important step towards reducing our reliance on conventional energy. Water conservation is another key focus area, supported by advanced recycling and optimisation techniques; we are proud to operate as a Zero Discharge Plant.

Our commitment also extends to sustainable packaging, shifting to recyclable and biodegradable materials to reduce landfill waste and promote circular use. Beyond environmental initiatives, we actively collaborate with organisations such as the Green Building Council to align our sustainability goals with industry best practices.

We firmly support building a healthier planet and a more equitable, sustainable future. For us, sustainability is not just a goal, but a shared responsibility and a vision we strive towards every day.

Robust Environmental Governance

Somany has implemented robust Environmental Management Systems (EMS) across all its manufacturing plants, certified under ISO 14001:2015.

This certification provides a structured framework for effectively managing and continuously improving environmental performance and compliance.

R&D-Driven Innovation

Somany Ceramics has an annual production capacity exceeding 75 million sq. m, fully compliant with IS 15622:2017 standards across Ceramic, GVT, PVT, and DC tiles for both wall and floor applications. Our in-house R&D facility has been recognised by the Government of India since 1996.

Reducing Energy Consumption

Advanced heat recovery systems integrated into all kilns have reduced energy consumption significantly by up to 20%. One of our plants houses the longest kiln in Asia, powered by high-fuel efficiency technology.

Energy Efficiency Initiatives

To reduce energy consumption, Somany Ceramics has adopted double-kiln technologies, installed Variable Frequency Drives (VFDs) in motors, and deployed energy-efficient motors in kilns and horizontal dryers. Waste heat recovery systems have been implemented in kilns, and the maximum working pressure of air compressors has been reduced.

Waste Management

Somany is committed to sustainable manufacturing by recycling waste generated across various stages of production, and nearly 10% of the total input materials used are derived from recycled waste.

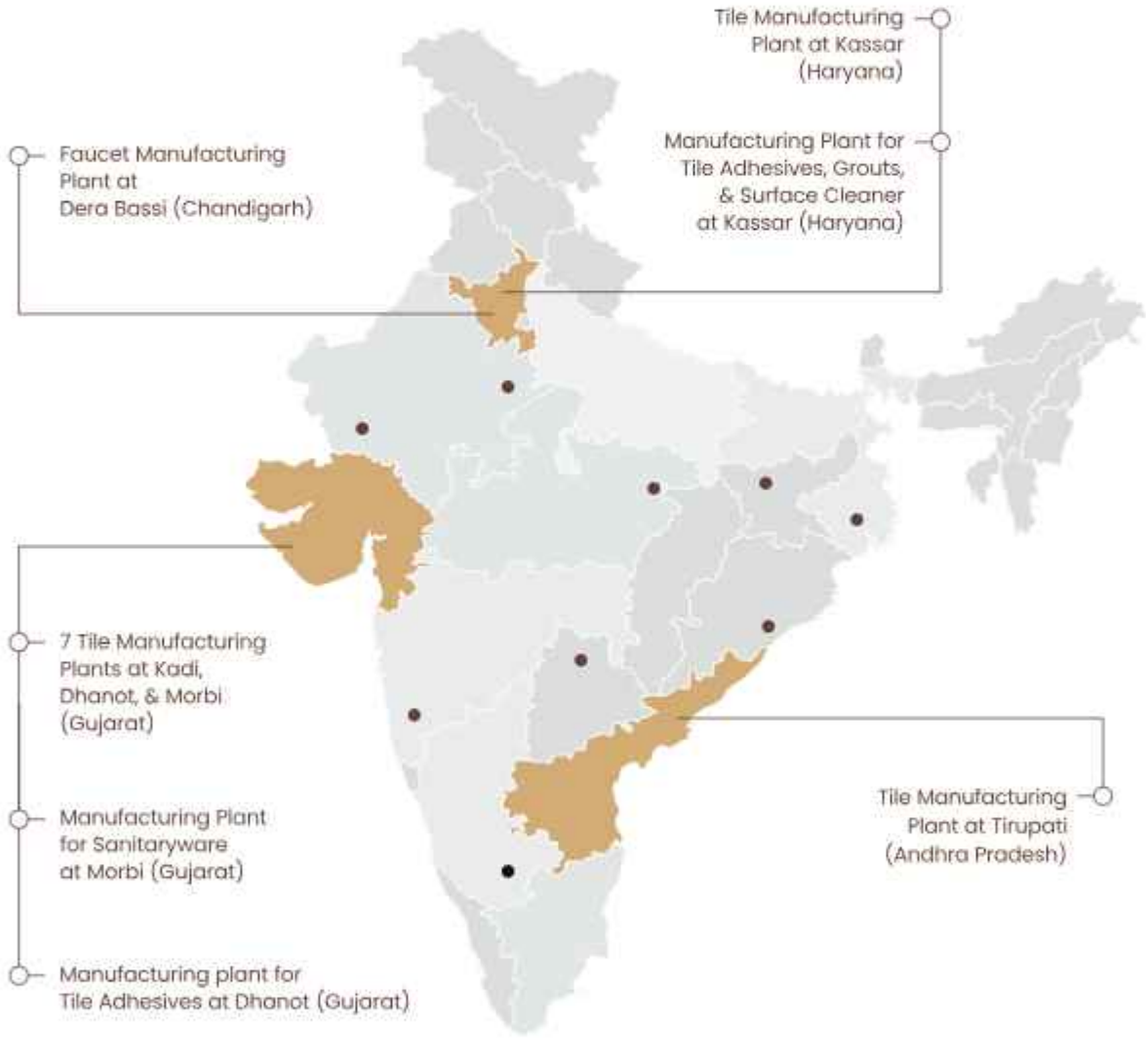

Water Conservation

We have implemented a robust water conservation strategy, with both our Kassar and Kadi plants operating on a Zero Liquid Discharge (ZLD). This ensures that all wastewater is treated and fully recycled within the plant.

OUR MANUFACTURING FACILITIES

With a robust manufacturing footprint across key regions of India, we ensure timely delivery, consistent quality, and the scalability to meet rising demand. Our state-of-the-art facilities are strategically located to enhance operational agility and deepen regional engagement, enabling us to serve our markets with faster response times, flexibility, and precision. More than just infrastructure, these hubs reflect our unwavering commitment to excellence, innovation, and continuous improvement.

As part of our growth strategy, we are expanding into Tier 2 and Tier 3 cities nationwide, tapping into emerging markets and engaging a broader, more diverse customer base.

SOMANY'S 4 PROMISES

TRUSTED LEGACY

With a legacy of over 50 years, SOMANY tiles have earned customers' trust with consistent innovation. As pioneers in ceramics in India, SOMANY offers high-quality products trusted by millions of customers in India and abroad.

MONEY FOR VALUE

SOMANY's products are "money-for-value", more than what customers generally seek as "value-for-money". By paying a slight premium for SOMANY products, customers gain access to significantly higher value in return.

CONSISTENCY IN DURABILITY, QUALITY & APPEARANCE

SOMANY tiles are meticulously crafted from top-quality materials and rigorously tested to guarantee outstanding durability. They excel in resisting abrasion, stains, warping, and wear. Their inherent strength minimizes the likelihood of cracks, chips, breakage, or fading over time. SOMANY tiles are renowned for their uniformity in size, shape, thickness, and appearance, enhancing their aesthetic charm making them a perfect choice for any application.

BESPOKE DESIGNS THAT SET TRENDS

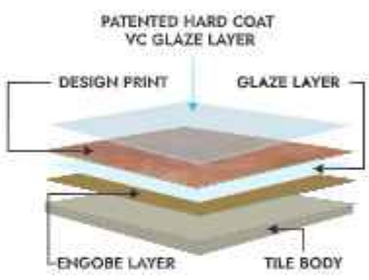

With one of the largest tile collections, SOMANY offers distinctive curated designs, colours, styles, patterns, finishes, sizes and applications. The yearly product launches by SOMANY set the industry trend.

TECHNOLOGIES THAT DIFFERENTIATE US

Technology fuels our pursuit of excellence, empowering us to redefine the boundaries of ceramic performance and craftsmanship. Our patented innovations—VC Shield, Slip Shield, and Temp Shield—demonstrate our dedication to enhancing durability, safety, and thermal resilience and lie at the core of our expansive product range, reflecting our commitment to forward-thinking design. As a trailblazer in innovation, we stay ahead of the curve by aligning with emerging trends and evolving customer needs.

VC SHIELD
Protection from abrasion

Experience unrivaled durability and protection with VC Shield Tiles, India's first & the only patented technology, which ensures exceptional abrasion resistant. With a sophisticated satin matt finish, it is the ultimate solution for high-traffic areas.

TEMP SHIELD
Protection from heat

TEMP SHIELD
THE COOLEST ROOF TILES

A perfect solution for sun-facing rooftops, effectively shielding the area below from intense sun heat waves while ensuring optimal protection and comfort. Experience the unparalleled performance with revolutionary SOMANY Temp Shield Tiles.

SLIP SHIELD
Protection from slipping & skiding

SLIPSHIELD

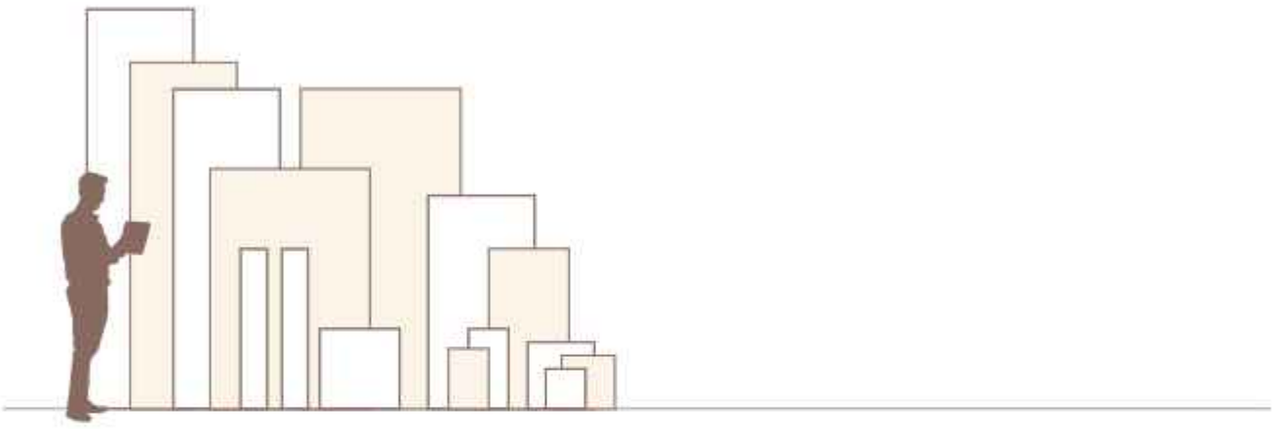

Discover Slip Shield Tiles, the perfect choice for safety in wet areas. With a high coefficient of friction and anti-skid properties, our tiles provide superior traction and peace of mind. Create a secure environment with Slip Shield Tiles.

India's First
Anti - Skid Tiles

A COMPREHENSIVE SURFACE EXPERIENCE

You name it, we have it. It's the perfect phrase to describe our vast selection of curated tiles-whether it's size, colour, style, pattern, design, finish, or functionality. From contemporary concepts to timeless classics, our diverse collection ensures you'll find the ideal tile to bring your vision to life. Our product range includes ceramic wall and floor tiles, polished vitrified tiles, glazed vitrified tiles, as well as durable solutions for outdoor and parking applications. We also offer nature-inspired surfaces featuring wood, sand, and stone finishes, all crafted to enhance any architectural project. With an extensive selection, we take pride in providing tailored solutions for every taste, aesthetic, and purpose. Whether your project is big or small, residential or commercial, we're confident you'll find exactly what you're looking for in our collection.

OUR AWARDS & CERTIFICATIONS: A MARK OF EXCELLENCE & COMMITMENT

Great Place To Work.®
Certified
FEB 2025-FEB 2026
INDIA

At Somany, every certification we hold and every award we've earned is more than a symbol – it reflects the values we uphold, the standards we exceed, and the trust we continually reinforce. These recognitions are not merely milestones; they affirm our unwavering commitment to excellence across every facet of our work. From product quality to process integrity, each accolade stands as a testament to our dedication to doing what's right for our customers, partners, and the environment. In every recognition, we find both pride and responsibility – to keep leading with purpose, delivering with integrity, and building with vision.

Esteemed Projects:
A Testament to Our Shared Vision

Chosen by leading architects and developers, our surfaces have become an integral part of India's most desirable and ambitious built environments. At Somany, we don't just provide tiles - we provide the foundation for your ideas to flourish. Wherever your project takes you, consider us your trusted partner, offering unparalleled surfaces and comprehensive solutions all under one roof. With every project, we reaffirm why architects who value precision, performance, and timeless design consistently choose us. Whether it's a refined residential retreat, a dynamic commercial hub, or an impactful institutional environment, our vast and versatile collections are designed to meet every vision.

Because exceptional spaces begin with exceptional partnerships, nothing less than excellence, and together, we bring your vision to life.

CONTEMPORARY

SURFACES

QUILLTOUCH : QUILLTOUCH surfaces offer a feather-like, velvety smoothness achieved through cutting-edge digital processes, resulting in a non-reflective finish.

These surfaces present a vibrant range of colours with exceptional clarity, skillfully blending elements inspired by nature. The finish delivers deeper tones while maintaining transparency and intricate structural surface formations.

It features a gloss level of less than 8, abrasion resistance rated at PEI 4, and superior slip resistance.

SHAPETECH : SHAPETECH seamlessly integrates shapes and elevations, creating punch-like surfaces in random phases that reflect the beauty of natural contours and imperfections in tile surfaces. This versatile canvas goes beyond stone, marble, concrete, and fabric, offering a unique opportunity to infuse depth and dimension into any space. The raised relief patterns mimic everything from the rugged textures of mountains to the delicate curves of wood, creating a sensory experience that connects our living spaces with the natural world.

CARVO : Featuring a tranquil matt base accented by randomly placed, deep-carved veins with a glossy lustre, this surface exudes quiet sophistication. The intricate carvings mimic natural patterns - from delicate leaf veins and the flowing elegance of marble and stone, to the organic lines of tree bark. The carved dimension invites touch and interaction, capturing the essence of the natural world with remarkable precision.

COVER9ine

collection

Born from the earth's ancient embrace, COVER9ine captures the majesty of natural marble and stands as a testament to versatility and innovation. Featuring an impressive range in expansive 1200x1800mm and 1200x2400mm sizes, this collection delivers a seamless, uninterrupted aesthetic that transforms any space. Full Polished radiates with a lustrous sheen reminiscent of a starlit sky, while Quill presents a non-reflective, velvety softness that mirrors the gentleness of a breeze. High Gloss amplifies vibrancy with its smooth, highly reflective finish, and Plume sweeps with sophisticated organic movement, creating serene visual flow. Engravo adds depth through intricate detailing where tactile sensation takes centre stage, while Gritstone embodies raw natural strength—weathered stone shaped by time itself.

COLORATO
collection

In the realm of design, colour transcends mere aesthetics; it is a profound language of emotion, memory, and connection. The Somany Colorato Collection epitomises this philosophy, seamlessly intertwining India's architectural heritage with a rich palette of colours, textures, and finishes.

This collection celebrates nature's hues across eight exquisite colours, each representing an Indian architectural marvel, harmoniously blending them with the linen texture—an emblem of understated elegance. The textured finish not only mirrors the fabric's allure but also creates a cosy atmosphere, making it an ideal choice for contemporary interiors.

Exploring these colours reveals a nuanced interplay of similarity and complementarity. Through the delicate dance of tints, tones, and shades, the Somany Colorato Collection showcases how context can shift our perception of colour, resulting in an organic spectrum that stands alone or intertwines in endless combinations. This versatility caters to both indoor and outdoor environments, enriching residential, commercial, and public spaces alike.

Sense of Touch

Linen, known for its natural, earthy texture and understated elegance, has long been revered in the realm of fashion and home decor. Translating this timeless allure into tile form, linen-textured tiles capture the essence of this revered fabric, infusing spaces with a sense of warmth, comfort and sophistication.

PORTO
collection

In a world where nature's artistry unfolds in layers, Porto's matted elegance stands as a testament to the raw beauty of natural stone. Its enduring strength reflects a material that has withstood geological eras, seamlessly retaining its charisma in contemporary design. As you gaze upon its surface, a rich palette of earthy tones captivates your senses. Deep slate hues mingle with warmer shades, accented by subtle flecks that reveal the intricate artistry of natural formation. Yet, its tactile velvety softness, with low-sheen is inviting while diffusing light in a soft, understated way, elevating the architectural nuances of any space. The surface, though strong and resilient, offers a tactile experience that feels comforting to the touch. This unique blend of strength and softness ensures not just visual appeal, but a surface that engages the senses, offering both beauty and practicality in equal measure.

SEDIMENTO
collection

The SEDIMENTO collection draws inspiration from the intricate layers of sedimentary bedrock. Echoing the primordial sediments shaped by wind, water and the passage of time, it evokes a tactile connection to nature's elementary forces, where one can almost feel the breezy flow of particles across the surface.

SEDIMENTO epitomizes a sophisticated synthesis of unparalleled strength and subtle textural elegance, rendering it an ideal solution for intensive and prolonged use. The SEDIMENTO collection offers a refined palette of light, medium and dark tones, making it effortless to find the perfect shade for any space while achieving a harmonious balance. Its delicate monochromatic hues highlight the material's versatility, allowing for stunning visual effects that accentuate architectural elements while fostering a sense of tranquillity. Marrying strength with style, SEDIMENTO seamlessly combines durability and elegance, delivering a timeless blend of beauty and resilience.

ETERNASTONE
collection

In the heart of the earth, where time carves its masterpiece, the Eternastone Collection was born. A tribute to nature's raw artistry, this collection captures the timeless beauty of natural craft stone in an exquisite 800x1600mm vitrified tile format. Each tile tells a story—etched with the rugged textures of ancient rock formations, shaped by wind, water, and time. It seamlessly integrates shapes and elevations creating punch like surfaces in random phases, bringing the beauty of natural contours and imperfections in the tile surfaces.

Eternastone Collection isn't just about aesthetics; it's about craftsmanship. The surface captures the tactile feel of natural stone, with subtle ridges, rich veins, and an earthy matt finish. The vitrified body ensures exceptional durability, making it perfect for both indoor elegance and outdoor resilience.

EVERSTONE
collection

The Everstone collection is a testament to the artistry of natural stone replication, meticulously crafted to evoke the raw, organic beauty of quarried rock. Its precision-engineered surface seamlessly blends the intricate textures and tonal variations of genuine stone, enriched by a delicately textured matt finish with a subtle sheen that enhances depth and dimension.

Developed for exceptional durability, Everstone is composed of high-density ceramic, ensuring superior resistance to scratches, stains, and moisture absorption. This makes it an ideal choice for high-traffic commercial and residential spaces, where longevity and aesthetic integrity are paramount.

Its low porosity and advanced surface treatment create a protective barrier against dirt accumulation, making it remarkably easy to clean and maintain. Additionally, its enhanced slip resistance makes it well-suited for outdoor installations, wet areas, and high-humidity environments, providing both safety and style.

TESORO

A hallmark of refined taste, Duragres Tesoro is Somany's signature collection of luxury vitrified tiles. Crafted to echo nature's finest materials, Tesoro replicates the stunning depth and detail of exotic stones, marbles, woods, and metals, delivering premium aesthetics with unmatched performance. The range is available in both polished and unpolished finishes, designed for sophisticated interiors that demand durability and design harmony. Its latest innovation, the Tesoro Repliq collection, features coordinated Light–Dark–Highlighter combinations and matching floor concepts for a seamless design story. With uniform body colour and rich textures, even edge chipping remains visually undetectable, ensuring long-lasting elegance in every corner.

600x1200mm | 600x600mm | 9mm Thickness

- **Full Polished**
- **Impression**
- **Matt**

Key Features & USP

- Inspired by natural stone, wood, marble, and metal finishes
- Available in both polished and unpolished surfaces
- Coordinated design concept with Repliq (Light–Dark–Highlighter + matching floors)
- Uniform colour body to conceal edge chipping
- Highly resistant to stains, fire, weather, and chemicals
- Luxury aesthetics suitable for premium interiors
- Precision-crafted for seamless surface continuity

Planks

Duragres Planks by Somany Ceramics offer the timeless charm of natural wood with the practicality of tile. Developed through years of meticulous R&D, each plank showcases true-to-life wood grains that cater to a variety of design sensibilities. Crafted for eco-conscious living, these tiles are a sustainable alternative to timber—durable, moisture-resistant, and easy to maintain. Whether used in homes or commercial spaces, Duragres Planks deliver effortless elegance and long-term performance. Their biggest advantage lies in quick installation and compatibility with trending laying styles like Herringbone, Brick, Chevron, Basketweave, or Gingham, offering a striking and customizable visual identity to every space.

196x1200mm | 200x1200mm

PRODUCT RANGES

• Dazzle • Natural Rock • Vintage Wood • Modern Wood • Exotic Wood

Key Features & USP

- Realistic wood-grain finish with natural textures
- Eco-friendly alternative to natural wood
- High durability with resistance to moisture, stains & termites
- Easy to install and low maintenance
- Compatible with multiple laying patterns (Herringbone, Chevron, etc.)
- Ideal for both floors and feature walls
- Wide range of wood tones and textures
- Slip-resistant and suitable for high-traffic areas
- Resistance to weather, fire and chemicals

CLAD STONE

Duragres Cladstone tiles by Somany are crafted to redefine elevation surfaces with lasting strength and architectural flair. This premium collection of elevation wall tiles blends natural textures with contemporary aesthetics, delivering striking facades that endure time and weather. Designed for both residential and commercial exteriors, Cladstone tiles bring a modern, rustic, or stone-inspired finish to any vertical surface. Engineered with high durability and weather resistance, they offer low maintenance while making a bold design statement. From villa fronts to boundary walls, from urban towers to boutique storefronts—Duragres Cladstone is your go-to choice for adding structure, character, and sophistication to elevations.

300x600mm | Rustic Deep Punch

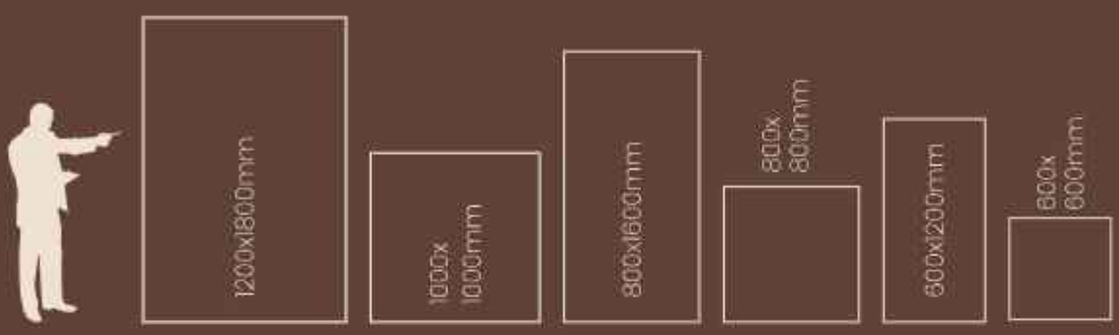

Key Features & USP

- Natural stone & rustic textured surfaces
- High strength and long-lasting performance
- UV, heat, and weather resistant
- Ideal for exterior façades and elevation walls
- Low maintenance and easy to clean
- Fade-resistant colours that retain their charm
- Variety of finishes to match architectural styles

VITRO

The Vitro collection features high-gloss polished vitrified tiles, thoughtfully crafted to enhance aesthetics, light, and spatial depth within interior environments. Their non-porous surface ensures excellent stain resistance and low maintenance, ideal for residential, hospitality, and commercial spaces.

Tones
by VITRO

The Tones Range by Somany is a beautifully curated collection that celebrates subtle textures, soft hues, and contemporary elegance. The range is a minimalist plain tile series designed to complement modern architectural sensibilities. With a focus on colour harmony, texture subtlety, and seamless application, the Tones collection offers a refined visual palette across three sub-ranges:

• Tones Dune

Inspired by desert landscapes and wind-sculpted sands, Tones Dune features gentle textures and flowing surface undulations. Ideal for natural-themed interiors and exteriors where surface tactility and tonal depth are desired.

• Tones Pastel

Soft, muted, and calming - Tones Pastel features a palette of light, chalky colours. This range creates serene spaces that are perfect for wellness zones, bedrooms, spa lounges, and boutique stores.

• Tones Dazel

Tones Dazel adds a refined sheen or glimmer to otherwise plain surfaces, delivering a light-catching effect without overstatement. Ideal for modern lobbies, reception walls, and ambient-light-enhanced interiors.

600x1200mm

Key Features & USP

- Available in matt and semi-polished finishes
- Inspired by natural tones and sand-like surfaces
- Seamless surfaces with minimal grout lines
- Easy to clean and maintain
- Durable, stain and scratch-resistant

SALT & PEPPER RANGE

The Salt & Pepper Range is Somany's high-performance full body vitrified tile series known for its speckled surface texture, visual uniformity, and durability. This range is built for function-first spaces without compromising on style. It features fine-grained designs that offer a subtle yet contemporary appeal for both commercial and residential projects.

- **Vega Series**

A timeless tile with fine salt-pepper speckling, perfect for institutional and residential flooring; available in 600x600mm, 600x1200mm & 800x1600mm.

- **Dusky Series**

Earthy tones with a classic salt & pepper effect, offering warmth and durability; available in Matt & Polish finishes and 600x600 mm & 600x1200 mm sizes.

- **Trento Series**

Minimalist tones with crystal and marble-infused speckles, ideal for modern spaces; available in Crema, Brown & Nero shades in Matt & Polish finishes.

600x600mm | 600x1200mm | 800x1600mm

Key Features & USP

- Full-body vitrified tiles – chip resistant and uniform throughout
- Uniform speckled texture – neutral & timeless
- Matt finish for better slip resistance
- Excellent for high-traffic & industrial zones
- Easy to maintain, stain & impact-resistant
- Suitable for floors & vertical surfaces
- Highly resistant to foot traffic, stains, and abrasions

ULTRA CHARGE TECHNOLOGY

The Ultra Charge range from Somany represents the brand's premium Double Charge vitrified tile category. Known for extra thickness, longer life, and double-layer infusion, this range is perfect for high-footfall, high-design environments. It includes two major sub-series:

• Luxora Series

This series is built for luxury with bold designs, rich colour depth, and glossy finishes. Its large format ensures minimal joints, giving any space a spacious and premium feel. Available in large format 800X1600mm & 1200X1800mm sizes.

• Iontech Series

The Iontech Series features mosaic chips fused into the tile body, offering a rich, natural look with lasting durability. With a super glossy, diamond-polished finish, these tiles suit both floors and walls. Available in serene earthen shades, they are anti-stain, eco-friendly, and perfect for elegant residential and commercial spaces.

600x600mm | 600x1200mm | 800x800mm | 800x1600mm | 1000x1000mm | 1200x1800mm

Key Features & USP

- Double-layer pressing for deeper patterns and colour richness
- Highly durable for heavy footfall zones
- Glossy finish available
- Less wear over time due to dense top layer
- Large format reduces joint lines and enhances elegance
- Resistant to stains, fire, and heavy loads

SOLUBLE SALT

The Soluble Salt collection comprises vitrified tiles with full-body construction, where pigmented salts penetrate the tile structure to create consistent patterns throughout the material depth. Enhanced with nano-technology surface treatment, these tiles provide superior stain resistance, scratch resistance, and simplified maintenance protocols. Designed for high-traffic commercial and residential applications where durability and visual consistency are essential.

600x600mm

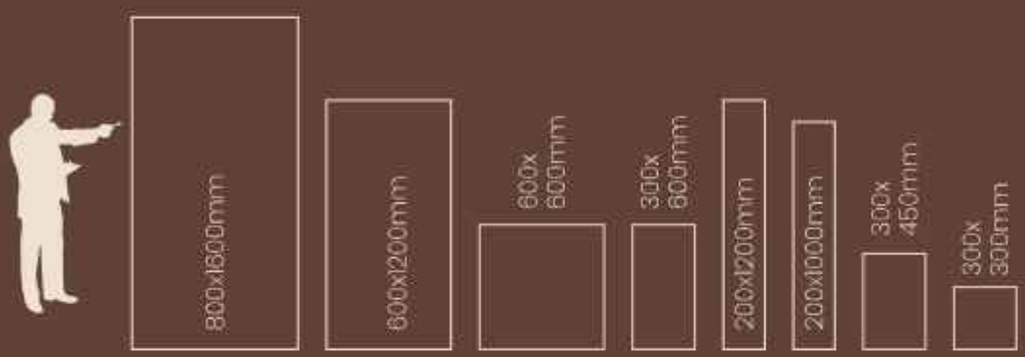

Key Features & USP

- Advanced nano-technology coating for stain and scratch resistance
- Ultra-protective surface that withstands daily wear and high traffic
- Minimal maintenance with enduring aesthetic appeal
- Ideal for high-traffic commercial and residential spaces

Ceramica

The Ceramica range offers a versatile collection of high-quality ceramic tiles, crafted for interior wall and floor applications across residential, commercial, and institutional spaces. Made from durable ceramic material with advanced digital printing, the collection is available in glossy, matt, rustic, and full-polished finishes.

MARVELA
FLORTUFF

The Marvela FLORTUFF collection represents premium vitrified tiles designed for high-specification wall and floor applications. It offers three finishes: Full Polished provides high-gloss surfaces with superior light reflectivity for visual depth; Endless Full Polished features edge-to-edge continuity designed for large-format installations with minimal visual interruption; Matt finish delivers low-sheen surfaces suitable for slip-critical areas.

600x600mm | 600x1200mm | 800x1600mm

Key Features & USP

- Natural marble look with polished and matt textured surfaces
- High strength and long-lasting performance
- UV, heat, and weather-resistant
- Ideal for interior walls and floors
- Low maintenance and easy to clean

GLOSSTRA

The Glosstra collection features interior wall tiles with high-gloss glazed surfaces engineered to maximise light reflectivity and enhance spatial depth. Offering decorative patterns from precise geometric compositions to refined floral motifs, these tiles deliver aesthetic flexibility with technical performance. The glazed surface ensures stain resistance and low-maintenance upkeep, while the uniform speckled texture provides a sophisticated neutral base.

300x450mm | 300x600mm

Key Features & USP

- Engineered specifically for interior wall applications
- High-gloss surface maximises light reflectivity and spatial perception
- Uniform speckled texture provides neutral, timeless aesthetic
- Glazed surface delivers stain and dirt resistance with minimal maintenance
- Available in multiple geometric and floral pattern options for vertical installations

Vistoso

PREMIUM DECORATIVE TILES

The Vistoso collection presents interior wall tiles thoughtfully engineered for wet areas, combining design sophistication with high-performance reliability. Available in Satin Matt and Sugar Matt finishes—offering low-sheen surfaces with uniform light reflection and subtly textured profiles that enhance grip and visual depth, making them ideal for seamless, contemporary vertical installations. Featuring decorative patterns designed for walls, Vistoso tiles deliver consistent chromatic stability and moisture resistance, making them a versatile and refined choice for high-end residential and commercial interiors.

300x300mm | 300x450mm | 300x600mm

Key Features & USP

- Natural marble, wood, and geometric pattern designs
- Available in multiple colours and design patterns
- Ideal for interior wall applications
- Low maintenance and easy to clean
- Fade-resistant colours that retain their visual appeal

WOOD ESSENTIA

The Wood Essentia collection features ceramic tiles meticulously crafted to replicate the natural grain patterns and surface textures of wood. With rich grain variations, organic tones, and tactile realism, these tiles offer the visual warmth of natural timber while delivering the performance characteristics of ceramic: moisture resistance, dimensional stability, and minimal maintenance. Designed for interior flooring and wall applications, Wood Essentia is ideal for lobbies, living areas, and other high-traffic residential or commercial spaces.

200x1000mm | 200x1200mm

Key Features & USP

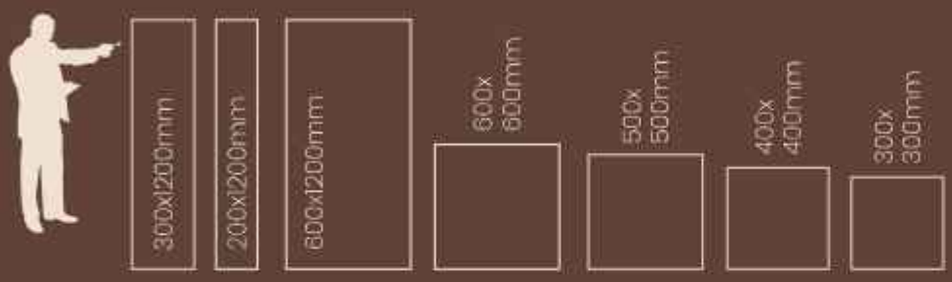

- Authentic wood grain finish with tactile, natural textures
- Sustainable alternative to natural wood
- Easy to install and low maintenance
- Compatible with multiple laying patterns, including Herringbone and Chevron
- Ideal for both flooring and feature walls
- Extensive palette of wood tones and refined textures

DURASTONE

HEAVY DUTY VITRIFIED TILES

Engineered for extreme outdoor conditions, Durastone offers high-strength vitrified tiles combining exceptional longevity with aesthetic precision. Available in finishes ranging from matt to polished, these tiles are ideal for high-traffic, load-bearing areas such as driveways, terraces, pool decks, and industrial zones. Stone-inspired surfaces deliver both robust structural performance and versatile design appeal.

STONE 15

The Stone 15 collection features heavy-duty vitrified tiles precision-crafted for extreme industrial and outdoor applications. Designed for factories, workshops, high-stress operational zones, as well as terraces, verandahs, pathways, patios, and other outdoor living spaces, these tiles deliver maximum load-bearing capacity with superior abrasion resistance. Available in Matt and Rustic finishes, the natural stone surfaces with coarse textures provide enhanced slip resistance, ensuring safety, durability, and reliable performance in demanding environments.

600x600mm | 15mm Thickness

STONE 10

The Stone 10 collection features heavy-duty vitrified tiles engineered for high-performance commercial and outdoor applications. With refined Matt and Rustic finishes, these tiles combine slip resistance, scratch resistance, and exceptional strength, making them ideal for terraces, verandahs, pathways, patios, and other outdoor living spaces. Designed for high-traffic commercial zones such as parking areas and shopping complexes, Stone 10 delivers robust durability while bringing compact elegance to exterior and outdoor living environments.

600x600mm | 10mm Thickness

Key Features & USP

- Eco-friendly
- Easy to clean
- Frost resistant
- High abrasion & scratch resistant
- Exceptional MOR & breaking strength
- High slip resistant

DURASTONE

Durastone by Somany is a high-performance vitrified tile inspired by the raw, elemental beauty of natural stone. Crafted for strength, durability, and longevity, it is ideal for outdoor applications such as pathways, terraces, patios, and facades. Defined by layered earthy tones, it adapts seamlessly to timeless, contemporary, or rustic design expressions. Engineered to withstand heavy traffic and harsh weather, Durastone ensures exceptional slip resistance and chromatic stability for lasting architectural impact.

300x300mm | 400x400mm | 500x500mm | 600x600mm | 200x1200mm | 300x120mm | 600x1200mm

Key Features & USP

- High resistance to UV exposure, heat, frost, and weathering
- Slip-resistant surface ideal for high-traffic zones
- Minimal maintenance with long-lasting performance
- Fade-resistant colours that preserve visual harmony
- Exceptional chromatic stability with enduring surface appeal
- High flexural strength for enhanced structural integrity
- Eco-friendly and recyclable material
- Versatile application across terraces, pathways, patios, and verandahs

Italmarmi

SOMANY

When you think world-class design, you think Italian. The sharp cuts, the artistic lines, the aesthetic tones -no one does it better. So, taking inspiration from Italian architecture and designs, we at SOMANY envisaged a brand that would cater to the true connoisseurs of luxury and design. We wanted to create world-class tiles that would elevate any home. Thus, was born Italmarmi - a range of Premium, Luxury tiles. Designed while keeping in mind global trends and styles. Artistic mosaics, spectacular glass tiles or patterns and textures - Italmarmi aims to reshape the way we think about tiles. It is an expression of exclusivity and dynamism.
