TECH HOMOGENEA
collection

Stone has always been humanity's most pristine, unfiltered, and irreplaceable element. The Tech Homogenea Full Body collection by Vitro is an ode to that philosophy, reinterpreting the veining, depth, and organic character of geological formations into surfaces of genuine, collectible design.

Available in 600x1200mm and 600x600mm, this collection presents two purposefully crafted finishes. The Full Polished finish offers a smooth, luminous face with a fine mineral speckle that captures light evenly. The Matt finish carries a soft, non-reflective quality with a subtle earthy texture that honours the understated authenticity of natural stone. Underpinning both is a full body composition where colour, pattern, and veining run through the entire tile thickness, preserving visual integrity even under prolonged, heavy wear.

Conceived for seamless spatial flow, the Tech Homogenea collection moves gracefully from residential living rooms, hallways, and bathrooms into commercial lobbies, boutique showrooms, and luxury hotels.

The tiles in this catalogue are reproduced using four-colour printing, and the tiles may not be displayed in accurate sizes. Therefore, we strongly recommend customers to check the physical samples before placing an order. The "Technical Specification" applies exclusively to premium-quality Somany wall and floor tiles. Please inspect the tiles thoroughly before installation, as we don't accept any complaints once the tiles have been applied or fixed. Additionally, complaints regarding borders, highlighters, or motifs will not be entertained after purchase.
